

Sir,s I write to call atention to the fact that I need the services provided by XM radio,a service I pay for,it is a timely service which is not provided elsewhere as extensively and as in depth as is needed for my area.the NAB petition 04-160 is not a service that meets anyones needs in a large metropolitan area in fact there meager service is woefully out of date to be of any use at allthere bill is actually for there right to dictate who gets to control the airwaves it should be squashed as anti public needs.

thankyou,
Bernard J.Simsic
